@TorontoOuest en arts vivants, nos élèves créent une chorégraphie pour illustrer l'espace-temps, composent un RAP incitant les filles à étudier la physique... Vraiment une journée inoubliable où tous les objectifs sont dépassés

@Danforth_CTI is at @OntScienceCtr tonight to open The CERN Project display! Art and Science teachers collaborated 'to experience and inquire on themes that look at the intersections of science/physics/tech/art/music/dance'. MOE/CERN led this exciting project! @tdsb @TDSB_STEM
